**NOTICE:** If you respect the planet that you live on and all of its inhabitants then you will not leave your car running again in this manner. You have just been given a ticket for idling or leaving your car running unnecessarily. Don't feel too bad. Lots of people just don't know that they shouldn't do it. Would you like it if someone farted right in your face and you had to breathe it in? Well, that's what it's like when you leave your car running near my school, playground or anywhere there are things that breathe... And don't even think about throwing this ticket on the ground. That is also an offence against the earth payable up to \$130.00. Recycle this ticket or keep it in your car as a reminder not to do it again!

**SING ALONG:**

Don't let your cars idle!	Idling is such a ruse
It's quick to turn it off,	I think I've blown another fuse
Then we won't need to cough.	With putrid air we all lose
Never mind the drive-through	Don't tell me mind my p's and q's
Picking-up at school too	If only cars would run on poos
Turn off the engine	Tell the folks who tend to snooze
Leave the running to your shoes	The air is getting manky now
Don't give us all the blues	Or can't they read the news...
We've heard every excuse	All together now!
	<b>Don't let your cars idle!</b>
